SUMMARY

Passionate backend developer skilled in designing scalable and modular REST APIs using Java, Spring Boot, and MySQL. Experienced in building production-ready applications with focus on clean architecture, performance, and automation. Enthusiastic about problem-solving, new technologies, and continuous learning in full-stack development.

EDUCATION

2022 – 2026 (Expected)	B.Tech in CSE, VIT Bhopal University	CGPA: 8.05/10
2021	Class XII – S.S.V. Sec-X Bhilai, Durg	87%
2019	Class X – D.P.S. Durg, Chhattisgarh	92%

TECHNICAL SKILLS

Languages:	Java, SQL
Frameworks & Libraries:	Spring Boot, Spring Security, Spring Data JPA, React.js
Database:	MySQL
Tools & Platforms:	Git, GitHub, Postman, Docker, IntelliJ IDEA, Eclipse, Render
Core Competencies:	RESTful API Development, Backend Architecture, Database Design, Data Structures & Algorithms

PROJECTS

Event Booking & Management System

[GitHub Link](#)

Developed using Spring Boot, MySQL, and REST API. Implemented admin module for event creation and user module for registration, cancellation, and feedback. Integrated Spring Mail for email notifications and improved user engagement through streamlined registration and rating flow.

Invoice Generator with PDF Export

[GitHub Link](#)

Built with Spring Boot, iText to generate and export invoices as PDF files. Enabled product/client addition, automated invoice generation, and digital record-keeping — reducing manual administrative effort.

E-Commerce Backend API

[GitHub Link](#)

Designed modular backend with Spring Boot, JPA, and MySQL integrating Razorpay payment gateway. Implemented product catalog, cart, order management, and secure checkout with Swagger API documentation. Ensured maintainability and scalability through layered architecture and dependency management.

CERTIFICATIONS

- IBM Certified Blockchain Developer
- Bits and Bytes of Computer Networking (Coursera)
